

SoftSwiss Online Casino Solutions

Game Aggregator Proposal

Introduction

SoftSwiss is an established software provider for the iGaming industry, recognized internationally as a reliable business partner and developer of quality software solutions.

We offer 4000+ games from 50+ providers for online casino websites. This extensive portfolio can be added to any gaming software platform through a simple one-time API integration.

You can choose to enable any number of providers or games. SoftSwiss team assists at each step of integration and, working together with game content partners, provides technical support after the games go live.

- **4000+ games from 35+ game providers**
- **One-time integration**
- **Regular releases of new games**
- **Ongoing technical support**
- **Personal account manager with SoftSwiss**
